Beyond PPP …to Planning, Process, and Profitability – Part II

Description

June 23, 2021

4PM – 5:30 PM EST

On March 27, 2020, the U.S. government passed a bill under the CARES Act creating the Paycheck Protection Program (PPP). Last June, TMA Detroit presented a program which provided some insights on what to do after PPP, how best to advise clients, and what challenges PPP recipients might face. Join us as the same panel looks back one year later at the 2020 PPP program and reviews how the first PPP program worked and how companies might approach the latest round of PPP. The panel will also highlight specific experiences, both ones that worked well and ones that presented more of a challenge.
